Sketch studio

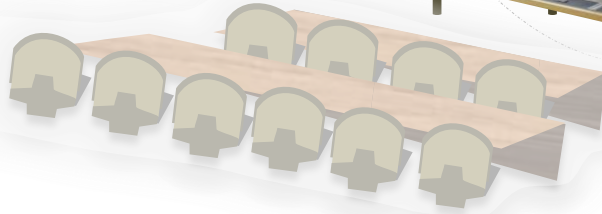

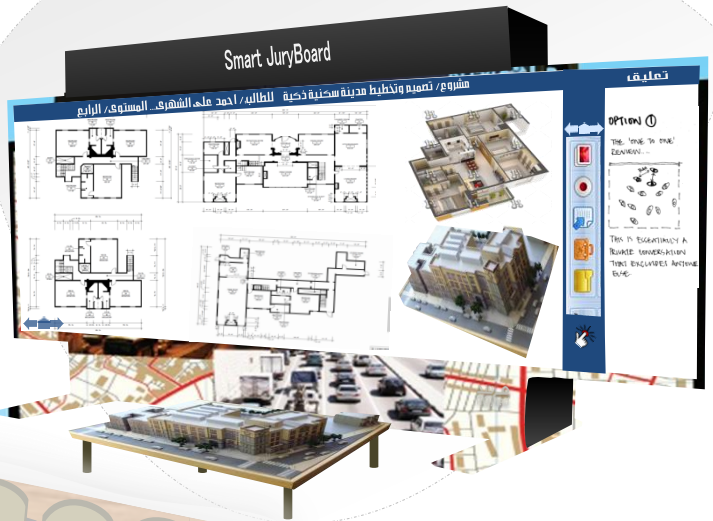

Directory kiosk

*Smart Sketchboard system* is an innovated solution by Morshed to display and judge a digital sketch diagrams – instead of a conventional sketch papers – of students within small area at a colleges of: architecture, planning, and Fine arts.

**SketchBoard partitions against number of students**  
Multi partitions layout for **SketchBoard** with directory kiosks used as a large-scale capacity that is suitable with number of students at collage buildings of architecture and planning

**Directory kiosk**  
Display **JurySession** agenda and locations for Multi partitions

Morshed Sketchboard is a touch large wide-board that has professional multimedia formats : 2d/3d plans, Movies & flash, Panorama style, and Background theme.

SketchLibrary module is sketch library app used to store data in graphic achieving format.

JurySession module is jury session booking app used to determine the Sketchboard time line as agenda & location.

SketchStudio composer is sketch content design and the presentation tools

## Conventional jury process can be canceled using Morshed sketchBoard solution:

- Students press the sketches on A0 papers and stick it on walls at collage building
- Students Lost the time and effort to make the papers and patterns
- Students Lost a lot of money to press the sketches
- Jury members Lost the time and effort to judge the sketches of students
- Collage has congestion and disturbance at the corridors
- Collage must be clean the wall after remove the stick papers
- Students make this handwork monthly over the academic year
- No library and archiving for the sketches of students

**NO**  
Press papers  
on wall
